TESTIMONY OF FAITH

“

For my last year of high school in 2020, I studied from home due to COVID. That's when, little by little, I started living my faith life again, thanks to FMC missionaries. From there my faith became stronger, and I received my Confirmation this year (which I had put off for many years). The day I was confirmed I felt God's peace, and I felt so loved by all the people present. That day I cried with emotion, understanding that God is always present, even if I don't realize it.

“Now I feel that I have much more faith, and I'm sharing it with the people I meet. Each moment that I have spent with FMC missionaries, each mission trip, each game night, each Mass, each retreat, was an experience that helped me to be the person I am today—a person dedicated to helping others, having fun in a healthy way, and above all, sharing my faith in Jesus Christ.”
